

STAR CATV INDOOR AMPLIFIER

MODEL: SR-40

Features:

- Deluxe Aluminum Housing for Excellent Heat-Sinking.
- Tilt Control & Gain Control Continuously Adjustable.
- Easy Installation.
- Gain 40dB to satisfy high-level requirement.
- Providing manual gain and slope control to adjust suitable signals.

Specifications:

- Operation Frequency Range: 40-860MHz. Single Directional network transmission, dedicated for the indoor CATV using.
- Output Level: 120dBuV
- Gain: Typical 40dB
- Gain Control: 0~20dB Continuously adjustable
- Tilt Control: 0~18dB Continuously adjustable
- Gain Flatness: ± 2 dB
- Noise Figure: <6dB
- Input and Output Impedance: 75 Ω
- Input and Output Test Point: 20dB
- Connector: Input and Output Test Points (All F-Type)
- Power Supply: 220V Ac
- Power Consumption: 8W
- Operating Temperature: -10~50°C
- AC Fuse(Internal): 0.5 AMP
- Package: 1 pcs in a small box, and then a few in carton. We can also pack according to customer requirement
- Can produce based on customer's requirement.
